

South African Revenue Service

Dear Stakeholder,

Decommissioning of the SARS Browser

We are pleased to inform you that significant progress has been made with the migration of all Adobe Flash forms to the new HTML5 platform. From 13 December 2021, the South African Revenue Service (SARS) will commence with the decommissioning of the current SARS Browser software.

The SARS Browser was introduced as an interim measure to ensure uninterrupted service whilst any remaining forms were converted to HTML5. All forms have now been converted to HTML5 and eFilers may revert to their preferred browser. The change is consistent with the strategic objective to modernise our systems to provide digital and streamlined services to taxpayers and traders.

The SARS Browser will no longer be available for download via the SARS website, and it will no longer be updated or supported. Due to these changes, all eFilers are encouraged to uninstall any instances of the SARS Browser and continue using their preferred browser such as Google Chrome, Mozilla Firefox or Microsoft Edge.

We thank you for your patience and cooperation during the migration period.

Sincerely

THE SOUTH AFRICAN REVENUE SERVICE
December 2021
