

LMS GOES LIVE – A NEW ERA FOR ADP LEARNING!

Johannesburg / 24 July 2025

We are thrilled to announce a major milestone in the evolution of the **Audit Development Programme (ADP)**, the official **launch of the Learning Management System (LMS)**.

What's New?

The LMS represents a significant leap forward in how learning and development are delivered within the ADP. This robust digital platform is designed to **streamline the administration, documentation, tracking, reporting, and automation** of educational content and training programmes, ensuring a more efficient and engaging experience for all ADP stakeholders.

Progress So Far:

- **Phase 1** of the rollout is officially **complete!** As of **01 July 2025**, the **first 200 Registered Candidate Auditors (RCAs)** who joined the ADP in the past 12 months have been successfully onboarded to the new LMS platform.
- **Phase 2** is **now underway**: All RCAs who register on the ADP from **01 July 2025 onwards** will be onboarded directly onto the LMS.

- Looking ahead, the **Final Phase** is scheduled for **01 April 2026**, when all remaining ADP candidates registered on the ADP before **31 March 2024** and did not submit their POEs will be migrated to the LMS. This is a **final call** to all the candidates who have started their POEs manually to submit their POEs before the deadline!

What to Expect:

Registered Candidate Auditors (RCAs) and Oversight Registered Auditors (ORAs) will receive email notifications prompting them to log in to the KnowHow site. Upon first login, users will be required to update their credentials. Each user has been assigned a unique username and will be prompted to create a password of their choice.

We understand that transitions can raise questions, but rest assured, the KnowHow platform is secure, and your information is protected. Trust the process as we work together to enhance your ADP experience.

Why This Matters:

The implementation of the LMS is expected to transform how learning is delivered and experienced within the ADP. From improved access to content to enhanced tracking of individual progress, the LMS is set to boost the overall efficiency, effectiveness, and engagement of the programme.

Stay tuned for further updates as we continue to roll out this exciting development. Welcome to the future of learning with the ADP!
